Specifications for Big Red Pneumatic Corking Machine

(Item #8165)

Pneumatic Corking Machine					
<p>Designed specifically for the small production commercial winery, including all wine-on-premises. Sturdy, strong and easy-to-use. Fully adjustable to fit a variety of bottle sizes. Works properly with natural, twin-disc, agglomerate and synthetic corks. Does not operate unless safety door is closed. Equipped with air pressure regulator and gauge to adjust PSI for a variety of corks. Compact size and small footprint makes this unit ideal for a countertop or worktable. Optional adapter kit for Champagne stoppers. Compressor required.</p>
